Wood touched by Light

Miguel Herranz

Cactus: a pleasant, likeable volume

Cactus is a likeable and elegant table lamp, created by Spanish designer Miguel Herranz for LZF. Its volume is one of the main features of the lamp, one that attracts attention even when it is switched off. When switched on, its beauty is boosted thanks to the interesting graphics achieved with the overlapping of the wood veneer.

The bottom piece is flat and extremely thin. Cactus's merit is its ability to establish a dialogue between the soundness of its shape and a lightness created by its small base.

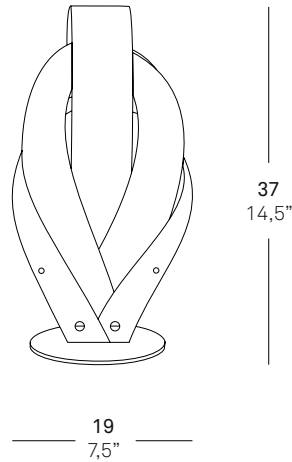

Cactus, volumen de simpatía

Cactus es una simpática y elegante lámpara de sobremesa, diseñada por el español Miguel Herranz para LZF. Una de sus cualidades es que apagada ya plantea un interesante volumen que consigue desviar las miradas. Después, una vez encendida, incrementa su belleza gracias a los interesantes dibujos que se definen entre las diferentes capas de madera.

La parte inferior es plana y extremadamente delgada. Cactus tiene el mérito de dialogar entre la contundencia total de sus formas y la volatilidad lograda con esa base estrecha.
