Wood touched by Light

---

## Yonoh Estudio Creativo

Pleg es un aplique de pared que surge de un simple pliegue de una lámina de Polywood®. La luz se distribuye por los costados abiertos mientras fluye también a través de la chapa en la cara frontal. Sus reducidas proporciones permiten que pueda colocarse en cualquier rincón, tanto en vertical como en horizontal, creando un efecto de luz distinto en cada caso.

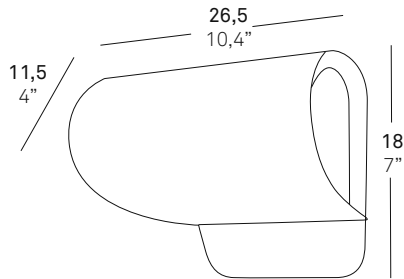

La sencillez con la que el estudio de diseño español Yonoh ha resuelto este ejercicio casi papirofléxico, cautiva a quienes buscan un diseño sencillo pero eficiente, adecuado a distintos estilos de decoración.

*Pleg is a wall lamp born from a very simple gesture: that of folding a Polywood® sheet. The light is diffused through the open sides while passing through the front piece of the veneer. Thanks to its small size Pleg can fit in nearly any space, horizontally or vertically. In each case, the effect will be different.*

*Spanish design studio Yonoh is responsible for presenting us this model, nearly an exercise in origami, that will captivate those who look for simplicity as well as efficiency and a style that goes well in any interior.*
