Wood touched by Light

SATURNIA

Oskar Cerezo

Saturnia, astronomical rings

Saturnia is a lamp family of clean, soft lines, made up of hanging lamps and designed by Basque-Swiss designer Óskar Cerezo for LZF Lamps. Its name and shape are reminiscent of Planet Saturn, the only planet whose rings can be seen from the Earth.

On one side, the light passing through the wood sheets creates a warm ambience. On the other, the plexiglas diffuser allows for a good working light. Moreover, it incorporates state-of-the-art electronic technology that assures a minimum electrical consumption and is a perfect choice for direct as well and indirect lighting, both in private homes or contract.

Saturnia, anillos astronómicos

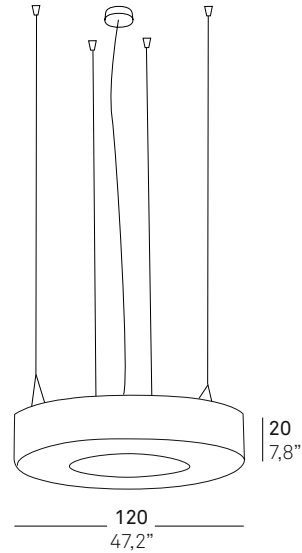

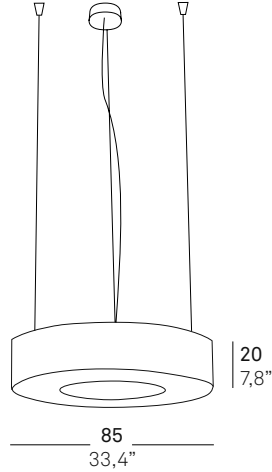

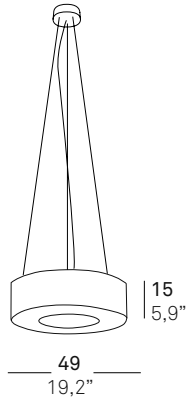

Saturnia es una familia de líneas claras y suaves compuesta por lámparas de suspensión diseñadas por el vasco-suizo Óskar Cerezo para LZF Lamps. Su nombre y su forma nos recuerda al planeta Saturno, que curiosamente es el único cuyos anillos son visibles desde la Tierra.

Por un lado, la iluminación difusa que se distribuye entre las chapas de madera, crea una agradable luz ambiental. Por otro lado, el difusor de metacrilato ofrece una buena luz de trabajo.

Equipada con tecnología electrónica para asegurar un mínimo consumo de energía es apta para la iluminación directa e indirecta de espacios privados y de contract.
