

A hand holding a piece of wood. The hand is rendered in a semi-transparent, light gray material, showing the fingers gripping a dark, textured piece of wood. The wood has a visible grain and is held in a way that suggests it is being worked or shaped. The background is a plain, light color.

Wood touched by Light

Victor Carrasco

Tilt, an acquired pose

Designed by Spaniard Victor Carrasco, Tilt has an unmistakable form lent to it by the unique combination of volumes, where the shade, on top of the structure, tilts intentionally to one side.

The result is a light sculpture which is easily integrated in most interiors, from private homes to public places. Its different versions cover all the needs of indirect lighting.

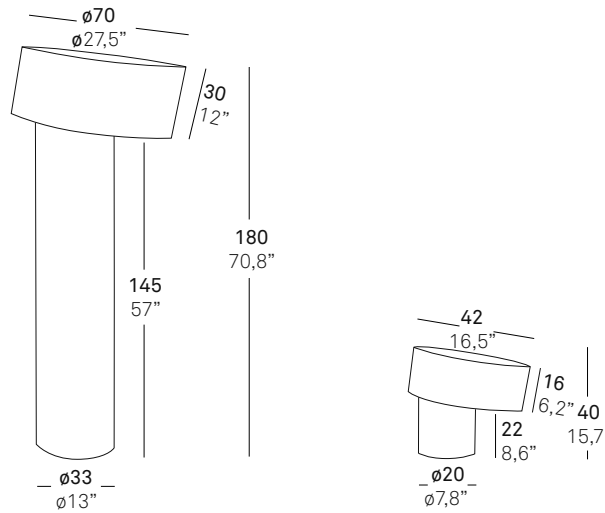

Tilt, postura voluntaria

La colección Tilt está diseñada por Víctor Carrasco. Su forma es inconfundible gracias a ese juego de volúmenes en el que la pantalla que corona, se ladea intencionadamente.

El resultado final es una escultura de luz que se integra con naturalidad en todo tipo de ambientes, desde hogares hasta instalaciones. Las diferentes versiones de la familia Tilt abrazan todas las necesidades de iluminación indirecta.
